Music	The role of the essential phospholipids in the NAFLD continuum Dr Asad Izziddin Dajani Consultant Gastroenterologist & Hepatologist at Asad Dajani Specialized Clinic, with affiliation to Medcare and Saudi German hospital in Sharjah.
Hello Dajani from UAE. Supporting the liver is an integral part in the management of NAFLD. Essential phospholipids are important agents used and adjunct with other medications that are treating NAFLD. I'm going to present in the conference the role of EPL in this context and show the deference between the other competitors that are used for the same propose based on our on clinical experience. Looking forward to meet you at the conference.	Dr Asad Izziddin Dajani appears in his office
