Global insights Prof Zobair M. Younossi President of Inova Medicine, Inova Health System and the Chairman and Professor of Medicine, Inova Fairfax Medical Campus.</p>
<p data-bbox="204 528 778 1234">Hello, I'm Zobair Younossi, the president of the medicine service line Inova Health System outside of Washington DC and have been in the field of Nonalcoholic Fatty Liver Disease over the past two and half decades. Will you be attending the first liver forum in October of this year? I'll be there and I'll be attending and discussing some of the issues related to the global burden of Nonalcoholic Fatty Liver Disease. Talking about the prevalence, progressiveness not only in terms of clinical outcomes, liver cancer, cirrhosis, liver transplantation, but also in terms of economic outcome and also the quality of life burden of Nonalcoholic Fatty Liver Disease. Hopefully during the Q&A session we will have quite a bit of an opportunity to discuss and have a good conversation about this most important disease in the world. Thank you again and looking forward to seeing you.</p>	<p data-bbox="842 528 1358 595">Prof Zobair M. Younossi appears in his office</p>
